

# Creating Activities

Custom activities can be created using Smoothflow. Once the new activity is created, it can be added to the workflow as a node.

1. On the Left Pane, click **Activities**.

2. Click **Create New Activity**. Activity creation view is displayed.

A screenshot of the 'ACTIVITIES' panel showing the activity creation form. The panel has a blue header with the title 'ACTIVITIES' and a close button 'X'. The form contains three input fields: 'Activity ID :' (a greyed-out field), 'Activity Name' (with a character count '0/50'), and 'Description'. At the bottom right of the form, there are two buttons: 'BACK' and 'NEXT'.

3. Enter the **Activity Name**.
4. Enter the **Description** and click **NEXT**. The Coding section is displayed.
