# Left Pane

This area contains all the controls of Smoothflow. The following describes the components in the Left Pane.

Logout - This allows logging out of the system.

Toolbar Controls - This contains the drag and drop elements which can be used to create the workflows.

Back to Drawboard - This allows the user to redirect to the Drawboard from interior elements. (If, ForEach)

Reset - This allows resetting the workflow. All the contents are erased when the Workflow is reset.

Activities - This allows creating new activities (nodes) which can be used with the Workflows.

Save - This allows saving a Workflow.

Open - This allows opening a Workflow.

Publish - This allows publishing a Workflow.

Import/Export - This allows Importing and Exporting Workflows

Download as Executable - This allows downloading the completed workflows as executable workflows for different platforms.

Settings - This allows configuring the settings of Smoothflow.

Help - This allows to view the help contents
